Plumbing & Electrical Option (PEO)

This popular option covers a wide range of common minor residential plumbing and electrical repairs. With one call, our highly skilled plumber or electrician will be at your door when you need it most.

Plumbing Coverage:

Here's a few of the convenient items included within PEO and, of course, **NO Charge!**

- Water heater replacement credit
- Kitchen and Lavatory faucet repairs, including replacements
- Common toilet, shower and tub repairs
- Leak and drain repairs (leakable and within home interior)
- Annual Plumbing Inspection
- ...And Much More!

Electrical Coverage:

- Standard & AFCI circuit breaker replacement
- Switch, receptacle and GFI repairs
- Accessible short and arcing damage repairs
- Disconnects, switches and boxes
- Annual Smoke Detector Inspection, Including 9 volt battery replacement
- Main Panel Thermal Imaging Analysis and GFI Circuit Test
- ... Much More and No Charge!

Inspections Included in PEO

- ✓ Protection
- ✓ Safety
- ✓ Peace of Mind

Plumbing

Inspections apply to the following readily accessible covered items:

- ✓ **Toilets** - Check for proper operations, connections and visible leaks.
- ✓ **Faucets** - Check for proper operations, functional flow, connections and visible leaks.
- ✓ **Showers/Tubs** - Check for proper operations, connections and visible leaks.
- ✓ **Accessible Supply Valves and Angle Stops** - Check connections, visible leaks and overall condition.
- ✓ **Water Heaters** - Check for proper operations, temperature settings, possible safety/code issues, connections and visible leaks.
- ✓ **Accessible Main Shut-Off Valve** - Verify accessibility and serviceability.

Electrical

Main Panel Thermal Imaging Analysis & GFI Circuit Test

- ✓ Inspect overall main panel condition.
- ✓ Check and tighten breaker, neutral and ground bar connections.
- ✓ Apply Thermal Imaging to main panel for possible "hot spots" and trouble areas.
- ✓ Inspect interior GFI receptacles for proper operation.

Smoke Detector:

- ✓ Verify age and overall condition.
- ✓ Test for proper operation & connections.
- ✓ Replace (applicable) 9 volt batteries (6 max.)

Did you know smoke alarms expire? National Fire Protection Association recommends **smoke alarm replacement every 10 years.**

Roughly 3 out of 5 fire deaths happen in homes with no smoke alarms or non-working smoke alarms.

Equipment Purchase Option (EPO)

Another Home-Tech EXCLUSIVE!

This "Purchase Agreement" available as an option, is the perfect addition to your Home-Tech Service Agreement. When AC systems are no longer repairable and must be replaced, the EPO really delivers! Replacement coverage that saves thousands of dollars on complete air conditioning & heat pump system(s) installations.

The average AC System replacement in 2023 costs \$12,500

- Covered systems under 10 years of age: **NO CHARGE!** Excluding non-standard items, permits and minor miscellaneous charges.

- Covered systems 10 years of age and over: **UP TO 40% COST DISCOUNT!**

EPO also includes Rust & Corrosion Coverage
...And Much More!

*Inspection may be required.

All options are purchased in addition to the Gold or Silver Service Agreement. Pre-existing conditions are excluded from all options. Inspection may be required. For promotional use only. Some restrictions apply. Please see official Service Agreement for complete details.
